

Getting onto the VLE

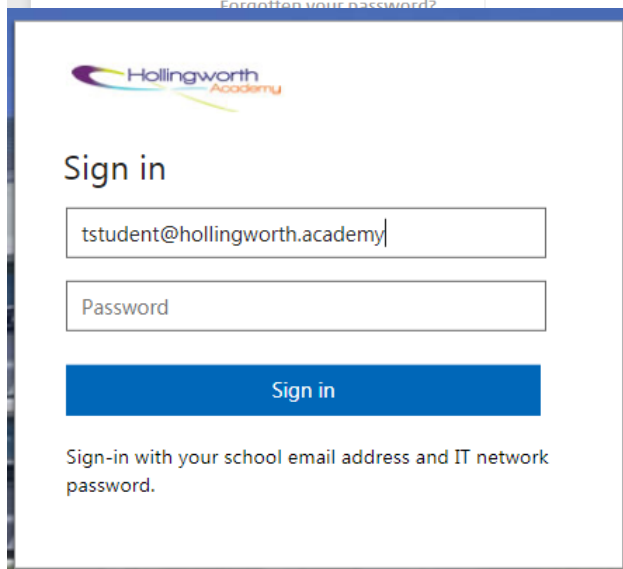

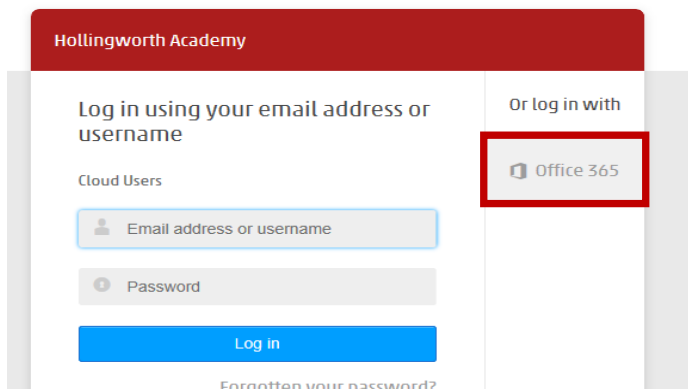

This guide will show you how to get onto the VLE (Virtual Learning Environment).

- 1) Accessing the VLE in school.

Go to, <https://hollingworth.fireflycloud.net/> which will take you to the VLE.

You will see this screen, then click on "Office 365" which is located on the right hand side.

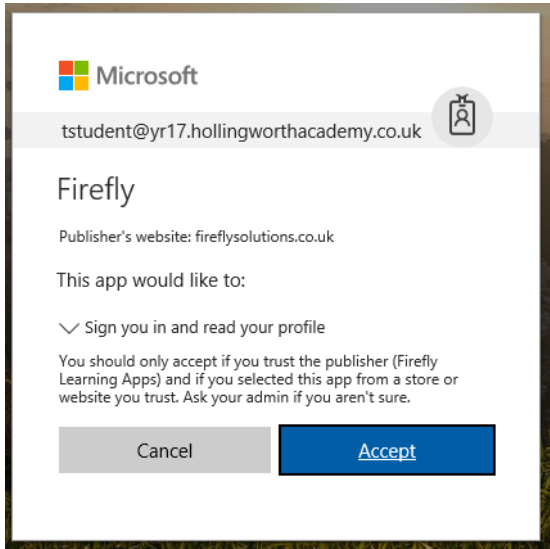

Put your Office 365 username which is:

username@hollingworth.academy

Where username is your network username and @ Hollingworth [DOT] academy.

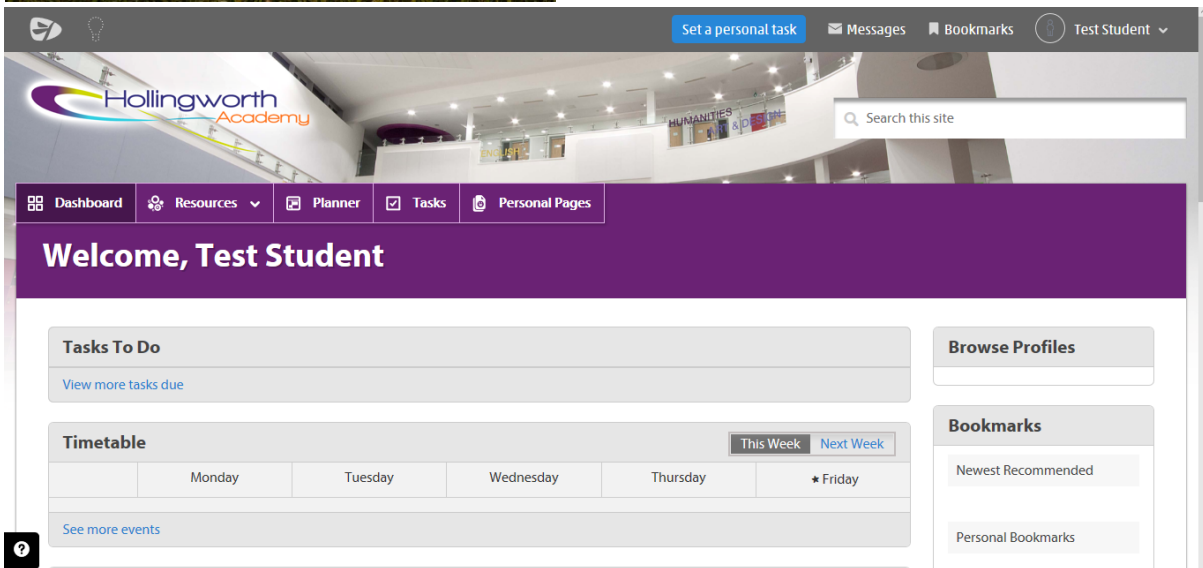

e.g. tstudent@hollingworth.academy

Press "Next".

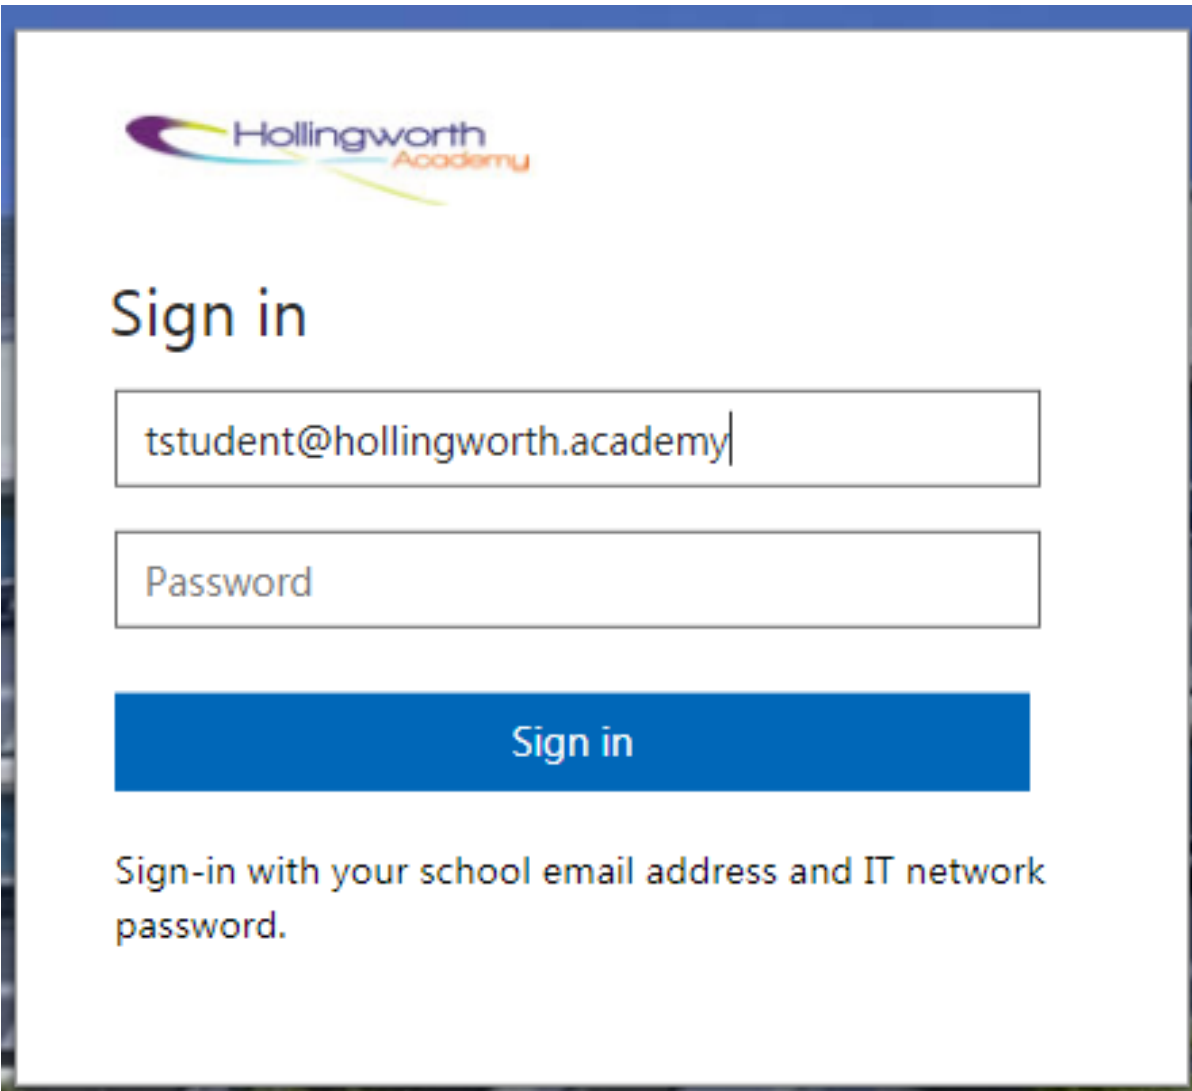

You may be asked to give Firefly permissions. If you see this, then click "Accept".

Now you have accessed the VLE in school.

2) Accessing the VLE from home

Go through the first steps, sign into Office 365 and once you click "Next" this will appear. Put your password in that you use to log into a computer with and click "Sign In". This will then take you to the VLE.

The screenshot shows a sign-in page for Hollingworth Academy. At the top left is the school's logo. Below it, the text "Sign in" is displayed in a large font. There are two input fields: the first contains the email address "tstudent@hollingworth.academy|" and the second is labeled "Password". Below the fields is a blue button with the text "Sign in". At the bottom of the page, there is a message: "Sign-in with your school email address and IT network password."
